Electricity Pricing Choice

If you're a residential or small commercial customer that pays Time-of-Use (TOU) electricity prices, you can choose to switch to Tiered prices.

TOU Pricing depends on when you use electricity. You can help manage your electricity costs by shifting your usage to lower price periods when possible.

Tiered Pricing allows you to use a certain amount of electricity at a lower price. Once you exceed that limit; a higher price applies.

Considering a switch? Visit haltonhillshydro.com/electricity-pricing/ for tools and information to help you decide.
